# Notes for Contributors

*Version: May 2023*

First of all, thank you for considering writing an article for the *TICCIH Bulletin*!

Members of TICCIH are welcome to contribute articles and news to the *TICCIH Bulletin*, which is our forum to share and be in contact with each other. Non-members may also propose articles to the editor.

The purpose of the *Bulletin* is to share new ideas, developments, discoveries, innovations, and opinions about the heritage and conservation of industry from anywhere in the world. The only restriction is that articles should be interesting for readers in more than one country.

The *TICCIH Bulletin* is published every four months. Articles are collected at the beginning of January, April, July, and October. The new issue is sent out a month later. Proposals should be emailed to the editor as attached Word documents, usually up to about **1000 words**, depending on the nature of the report, with two or three images.

**Images** should be sent separately (via *wetransfer*) as jpg files with at least 200 dpi (please don't embed them in the text) with short captions explaining what is in the picture in a separate file. Photos must be credited if they were not taken by the author.

All articles are in English. The author's name, position, and email address should be included to allow them to be contacted by readers.

Questions? Please contact me at **editor@ticcih.org**
